Hi David,

Thanks for the update. I plan to finish my work plan this week and then can revise as needed based on the test case/example.

Lisa

Hi Lisa,

Sorry for the delay in responding to your message. We met with the State last week on the 14<sup>th</sup> and they agreed to get us a “test case/example” aquifer exemption package by this Friday (Oct. 24<sup>th</sup>). It will not be a formal submittal, and they are looking to get feedback/input on the submittal from both EPA and the State Water Board. We agreed that the feedback will be provided at an in-person meeting, tentatively set for Oct 31<sup>st</sup>, although we are probably looking to move that to Nov. 3<sup>rd</sup>. Assuming we get an electronic submittal this Friday, I will forward to you as an example of what the State is currently thinking about providing to EPA, with the major caveat that it will not be a submittal that the Water Board has not seen. In terms of roles here in the State, the Water Board will likely be playing a key role in determining current DW use and guiding protection of future DW resources. Let me know if you have any questions. Thanks, David

Hi Dave and Michele,

I just wanted to check in and see if you have any more news on California.

Thanks,

Lisa
